## **ROWE Professional Services Company projects win American Public Works Association-Michigan awards**

**Flint, Michigan, March 10, 2010** – The American Public Works Association-Michigan Chapter honored the cities of Davison and Charlotte with awards this month for projects on which ROWE Professional Services Company was the design engineering firm.

ROWE Professional Services Company was the primary consultant for the City of Davison's project to disconnect 304 residential footing drains from the sanitary sewer and connect them to the storm sewer. Completion of the project helps prevent sewer back-ups into basements and sewage overflows into Black Creek. The project won an American Public Works Association-Michigan Chapter (APWA-Michigan) Project of the Year Award in the environment category.

ROWE Professional Services Company was also the primary consultant for a project to reconstruct Shepherd Street in the City of Charlotte. During the project, ROWE Professional Services Company aided the City of Charlotte by staying in close communication with residents and business owners affected by the construction, and working with the city and contractor to ensure construction-related issues were kept to a minimum. The project was a co-winner for an APWA-Michigan Project of the Year Award in the transportation category.

Both projects will advance to the national APWA award contest.

APWA is a 73-year-old international educational and professional association of public agencies, private sector companies, and individuals dedicated to providing high quality public works goods and services.

ROWE's headquarters is in Flint, Mich.; additional offices are located in Lapeer, Mt. Pleasant, Grayling, and the tri-cities area in Mich., and Myrtle Beach, SC.

ROWE Professional Services Company is a full service professional firm specializing in civil engineering, surveying, aerial photography/mapping, landscape architecture, planning, and land development services.
