ROWE engineer expands credentials

Flint, Michigan, July 10, 2009 – Stacie Tewari, P.E., a project engineer at ROWE Professional Services Company, this month passed the certification examination to become a LEED® AP professional.

The Leadership in Energy and Environmental Design (LEED) is a nationally accepted benchmark for the design, construction and operation of high-performance green buildings. LEED promotes sustainable site development, water savings, energy efficiency, materials selection and indoor environmental quality. The standards are used by architects, engineers, construction managers, government officials and other professionals to design environmentally-friendly projects.

Tewari is a resident of Flushing and works in ROWE's corporate headquarters in Flint.

ROWE has additional offices in Lapeer, Mt. Pleasant, Grayling, MI, and Myrtle Beach, SC. The firm provides engineering, surveying, landscape architecture, planning, and land development services to governmental and private entities nationwide.
